WHO WE ARE . . .

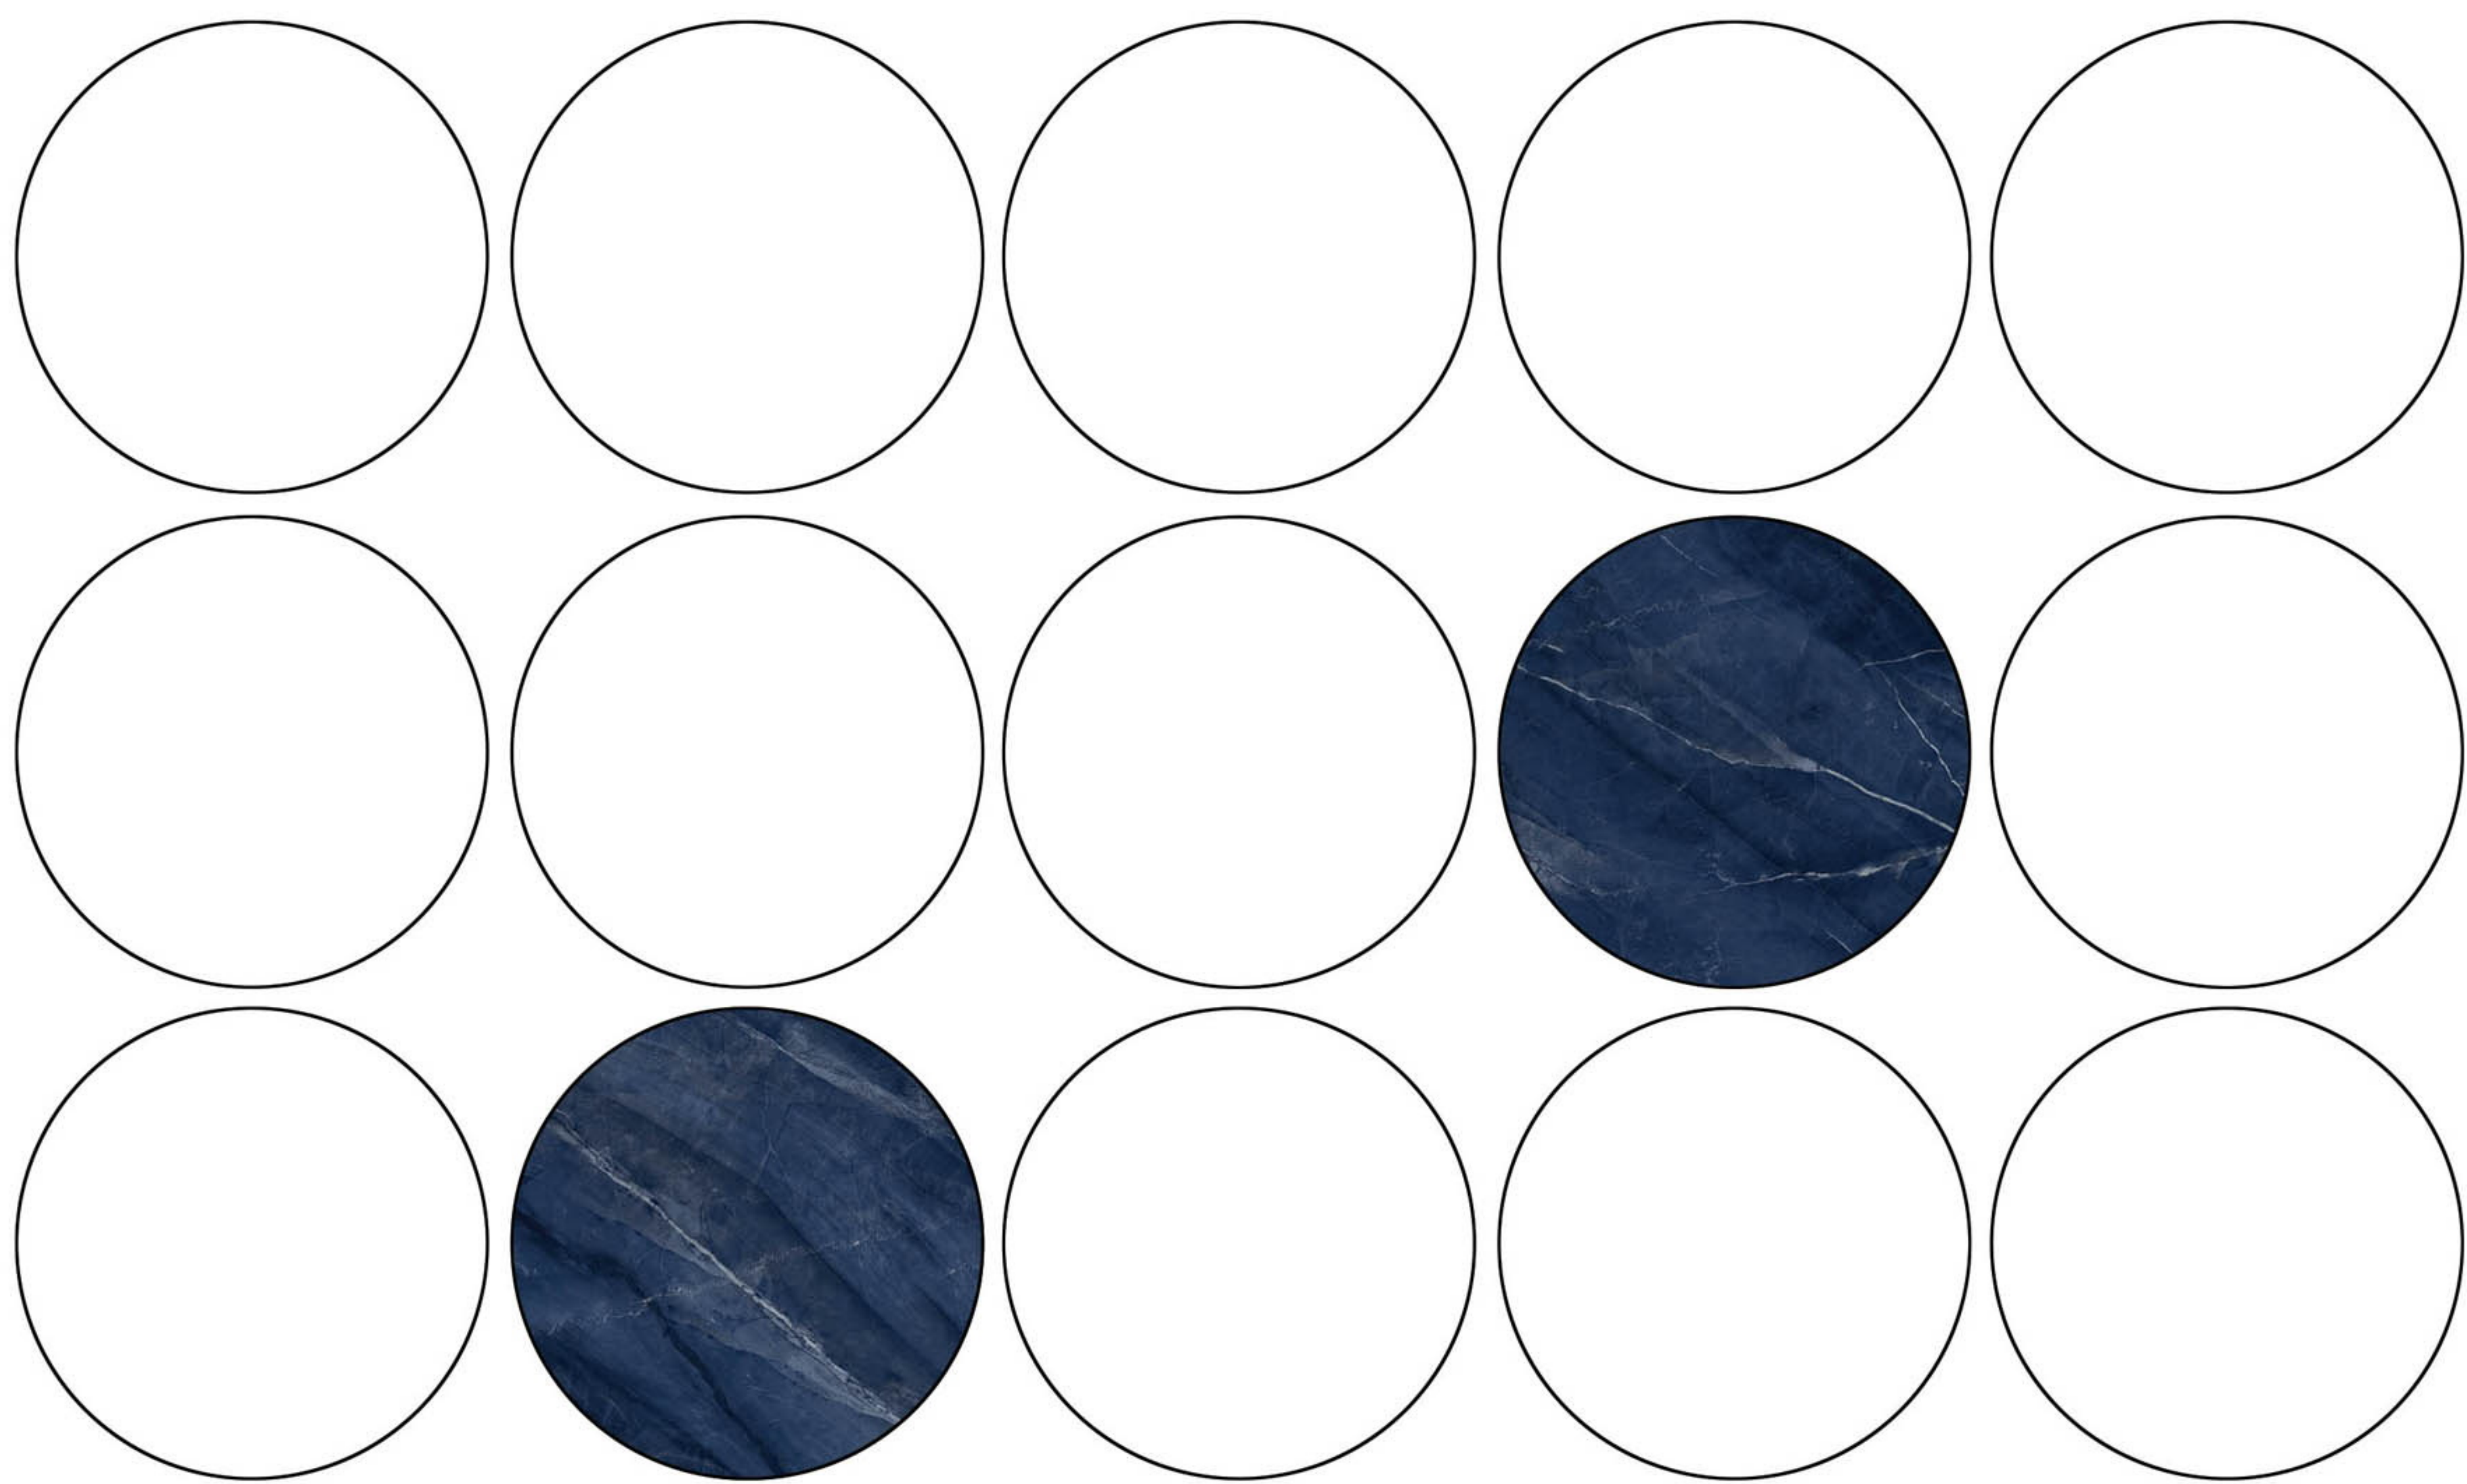

A different perspective

Lotus was founded in 2009 by a group of ceramic industry entrepreneurs sharing a common goal: to create ceramic products capable of evoking emotions. Years later, Lotus has evolved and expanded its vision, becoming the Lotus Group, a business group that is currently committed to staying at the forefront of creativity and technology.

A space for new ideas.

Lotus Group is currently an open door for experimentation. Our brain power is young but expert. While staying true to our past, we build on our experience, reinventing ourselves constantly with a strong international outlook.

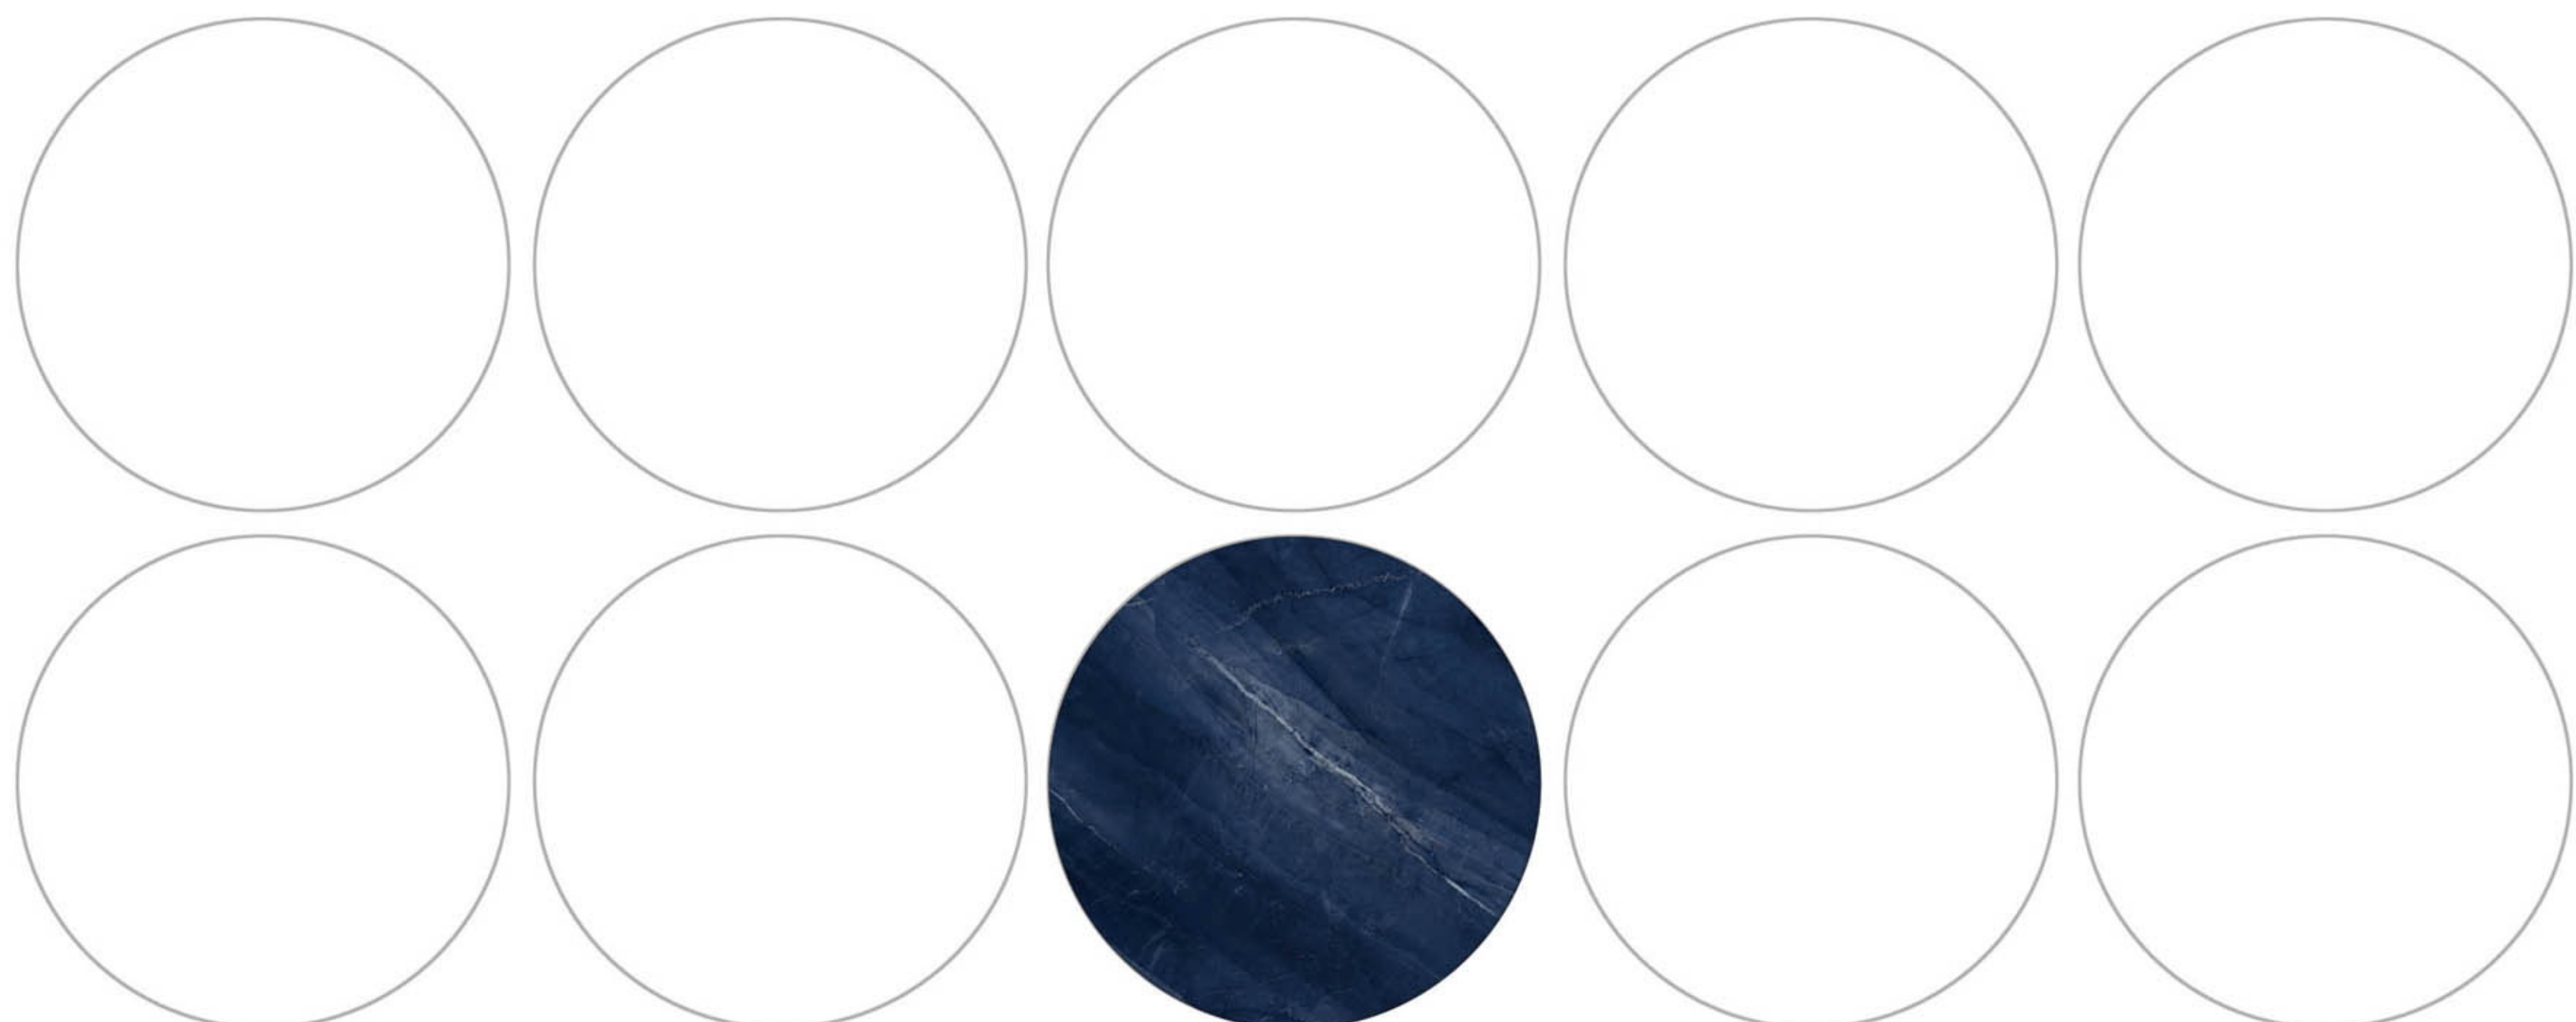

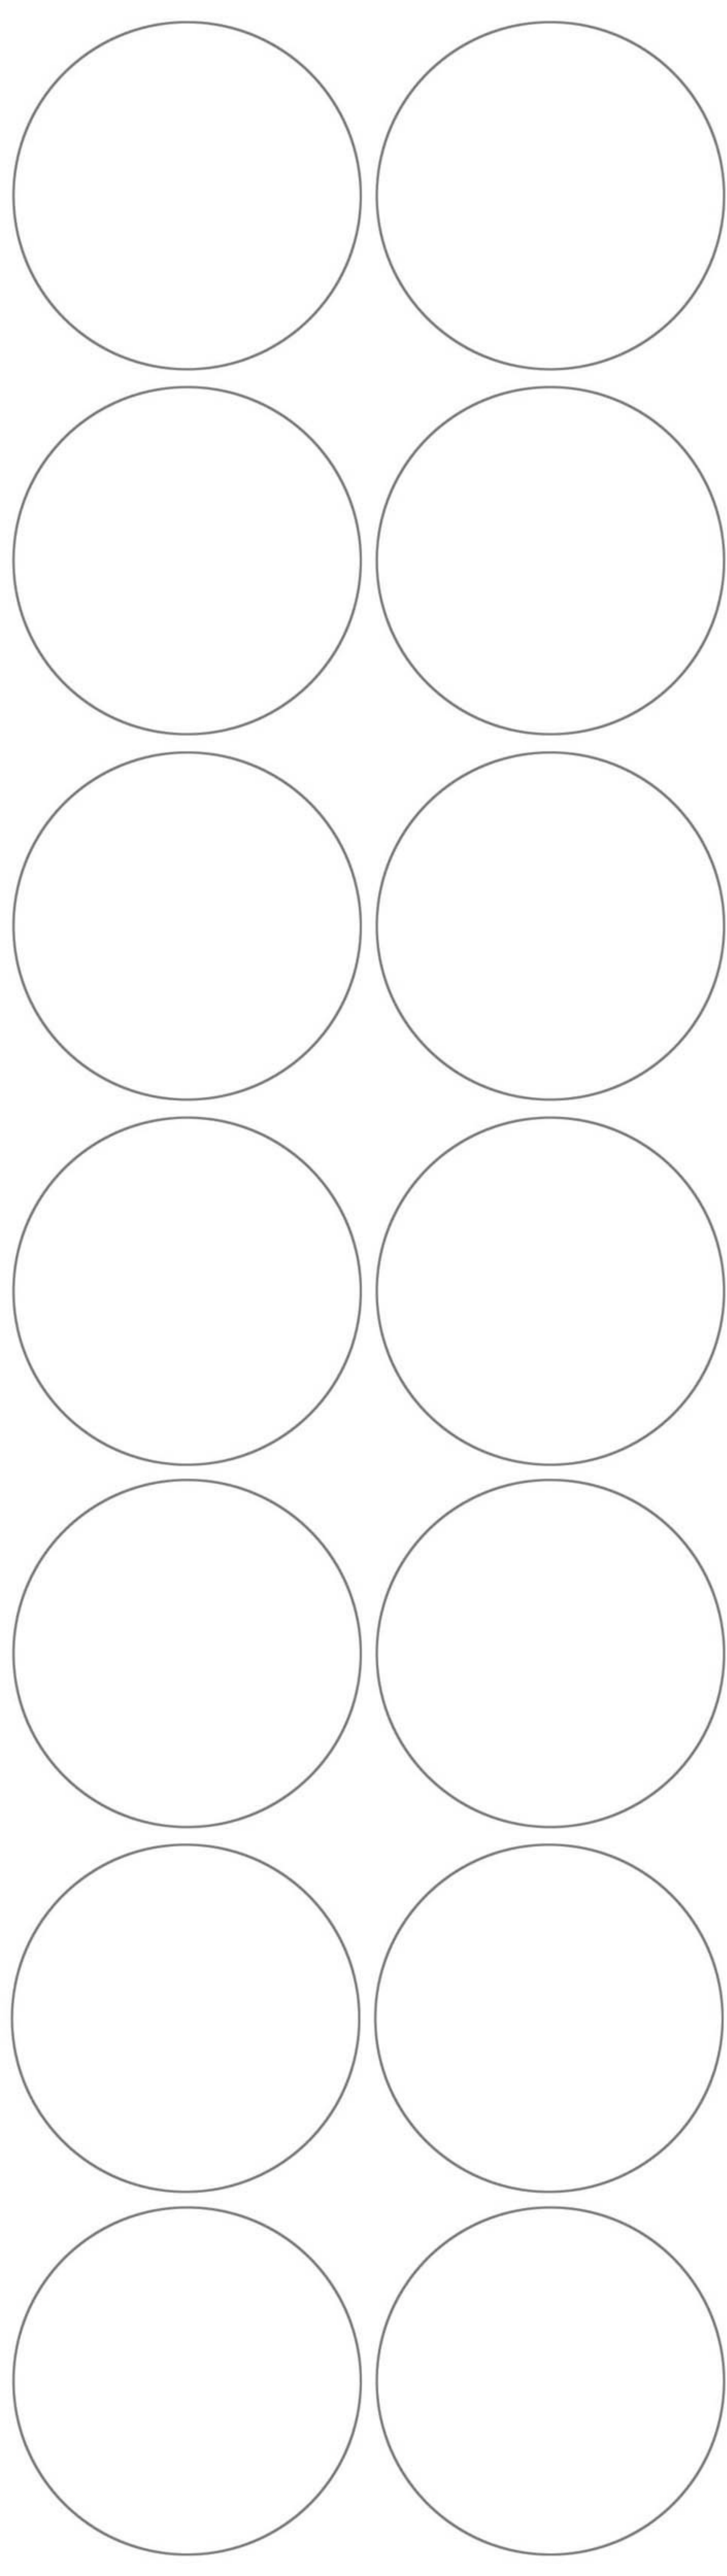

ENVIRONMENTAL MANAGEMENT

We are addicted to nature

We are committed to our environment and the future of our planet.

For this reason, our commitment to reducing the environmental impact of our operations includes ensuring both our own facilities and product design contribute to reduced energy consumption.

Design

Our goal is to offer our customers an intelligent, design-driven and democratic surfaces offering. To do so, we follow the latest trends, we are committed to innovation, and we take care of our costs, in order to offer high value products at a reasonable price.

Time

We know that time is the new wealth. For this reason, we work to offer maximum agility, availability and convenience throughout the entire purchasing process, from the search for information to the delivery and post-purchase service. In this process, we know that technology is our ally and that is why we invest a large part of our budget in it.

Experience

Prioritizing the client above all else. Offering a highly empathic experience is our maxim, taking into account the priorities of each of our clients and ensuring that we always offer them the best option. The people who make up LOTUS are HEPs (Highly Empathic People) and we demonstrate this in our behavior with our clients.

Trends

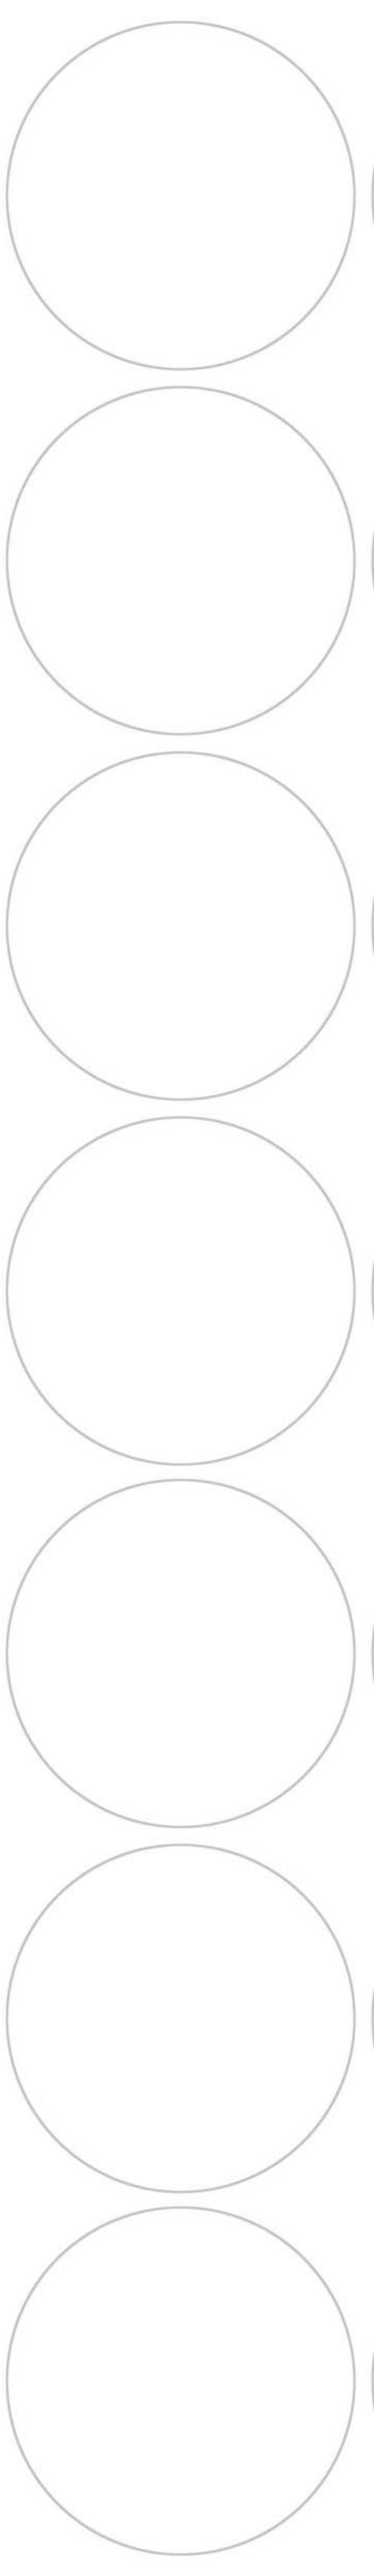

We seek the best balance in our collections, taking care of the breadth and depth and collecting all market trends. All this thinking that our customers will always find in our brand the solution they were waiting for.

Professionalization

We take care of the professionalization and training of the work team, at all levels and disciplines. We know that having highly qualified professionals is a very important asset for our company, which translates into more value for our clients.

Honesty

We emphasize ethics, honesty and transparency in our products and processes over the long term. We work on continuous improvement to ensure sustainability and achieve a better future for all: people, society and planet.

A modern bathroom interior featuring a freestanding bathtub. The wall is covered in black marble with prominent gold-colored veins. A large, arched window on the left side of the frame provides a view of greenery outside. A pendant light hangs above the tub. The bathtub is a dark, reflective material, possibly black or dark brown, with a sleek, curved design. A chrome faucet is mounted on the wall behind the tub. A small shelf with a bottle and a bar of soap is visible near the window. The floor is made of large, light-colored tiles.

Monte white

A circular image showing a close-up of a marble surface. The marble has a light cream or off-white base color, with intricate, dark grey to black veins running through it. The veins are irregular and organic in shape, creating a classic marble pattern. The lighting appears to come from the upper left, casting soft shadows and highlighting the texture of the stone.
